## **Writing task Year 8**

Create your own image of peace. Look for inspiration from your country. Is there an event or a person that inspires you? It could be something from the past that inspires your image idea or it could be something from the natural world. Sketch your image and write an explanation on the main features and what it means.

Use a simple and clear style. **Remember to plan your work** and write a draft to edit and improve before writing your final piece for submission. Write 150-170 words.
